BOMBILLAS LED

» BOMBILLAS LED RGB

230VAC

Que son las bombillas LED RGB?

RGB es un modelo de color con el que es posible representar **un color** mediante la mezcla por adición de los tres colores de luz primarios. (rojo, verde y azul)

Las bombillas LED RGB, es la mejor opción para tener tus bombillas de colores y cambiar de ambiente con un solo clic. Ofrecen a través de su mando un abanico de colores.

Advertencia:

Estas bombillas solo funcionan con nuestro mando Mod. **81.209/MANDO**, sin el las bombillas no cambiarían de color.
